

PermaBase[®] BRAND Cement Board

Rainscreen System with Cement Board

Description

PermaBase[®] BRAND Cement Board is a rigid substrate made of Portland cement, aggregate and glass mesh that provides an exceptionally hard, durable surface that is able to withstand prolonged exposure to moisture.

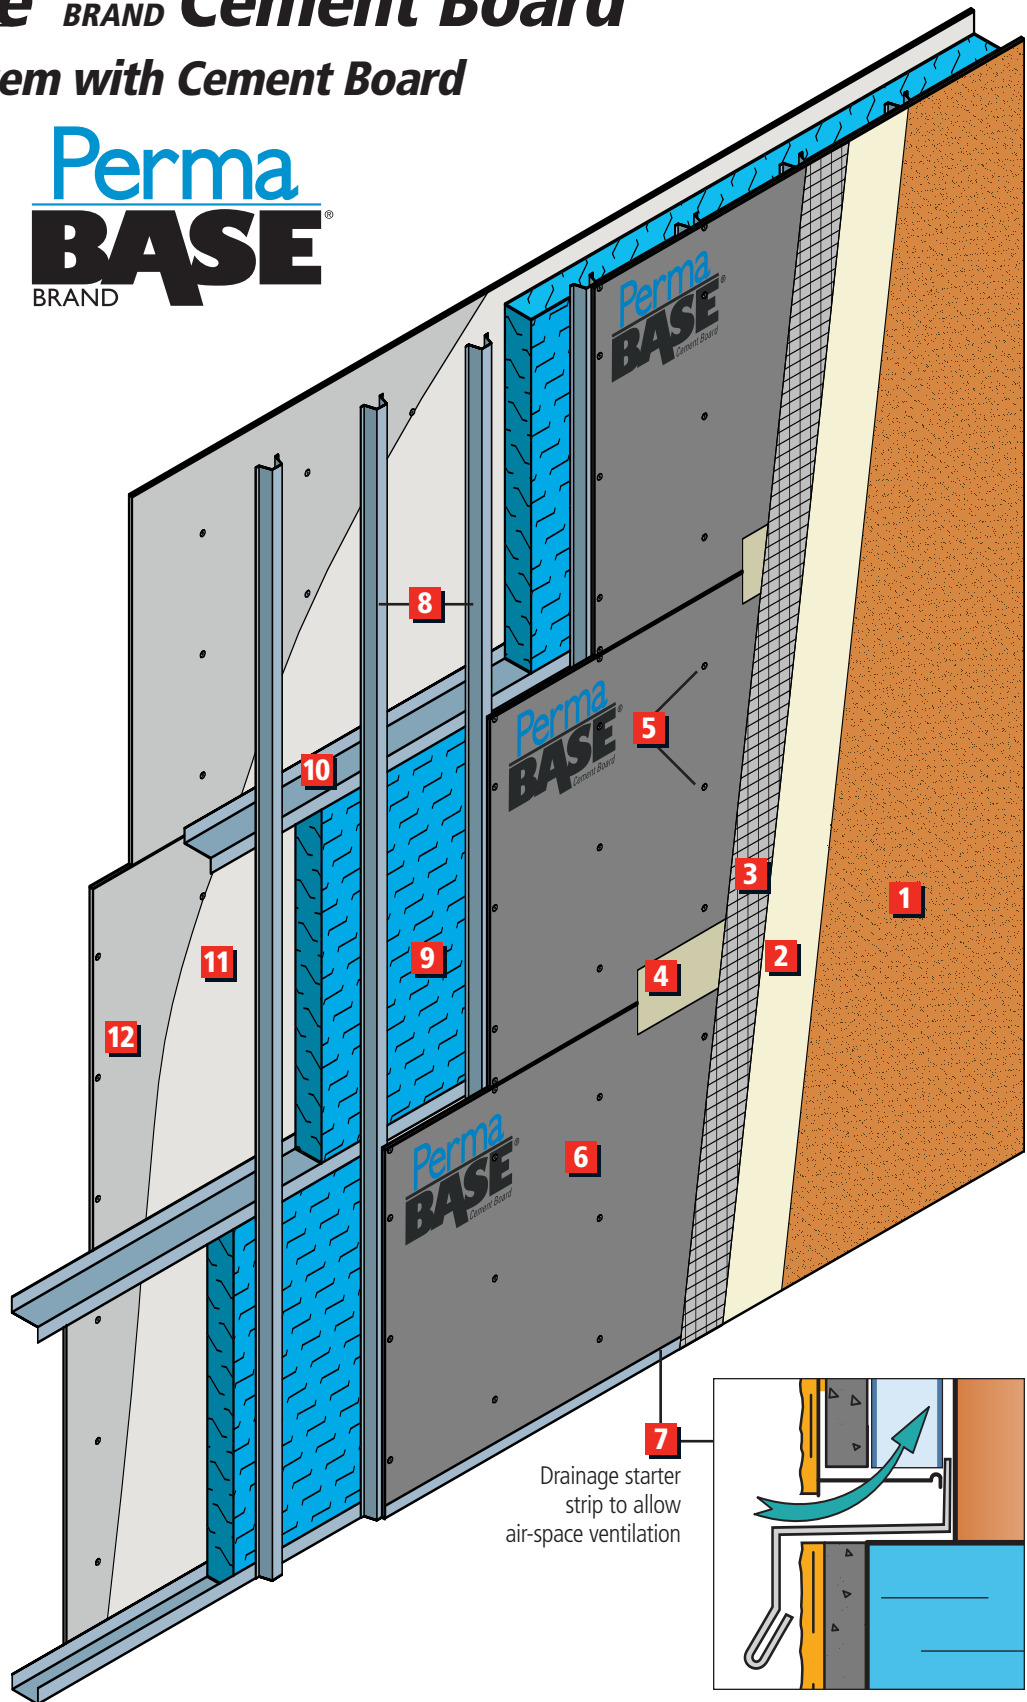

PermaBase offers a competitive advantage over similar products on the market with its patented EdgeTech[®] technology. The tapered, double-wrapped edge design allows for closer nail or screw application to the edge.

Features/Benefits

- Abuse & impact resistant
- Moisture protection
- Light & easy to install
- Positive drainage directly behind cladding
- Proven durability in cold climates
- Design flexibility

Details

1. Acrylic finish coat
2. Acrylic primer
3. Full surface mesh, fully embedded in Latex-Portland cement mortar
4. 75 mm mesh, over joint, fully embedded in Latex-Portland cement mortar
5. Treated screws at 200 mm
6. PermaBase Cement Board
7. Drainage starter strip to allow air-space ventilation
8. Vertical furring 20 gauge at 400 mm/o.c.
9. Rigid insulation
10. Horizontal steel Z bar
11. Air/vapor barrier
12. Sheathing
